XOOM 125R FEATURES

14" Large Wheels & Wider Tyres

The Hero Xoom 125 is built for better grip and greater confidence on any road. Its 14-inch large wheels paired with wider tyres ensure superior road contact and stability. Whether you're navigating tight city turns or zipping through open roads, this setup enhances cornering, braking and ride comfort, giving you that extra edge in both performance and safety.

LED Projector Headlamp

Ride with unmatched clarity thanks to the LED Projector Headlamp on the Xoom 125. Designed to cut through darkness with precision, it offers a focused and powerful beam, making night riding safer and more stylish. Apart from its excellent illumination, the headlamp also gives the scooter a bold and modern face that's hard to miss, even in daylight.

External Fuel Lid With Open Buzzer

Refuelling is now hassle-free with the Xoom 125's external fuel lid. No more lifting the seat or dealing with awkward tank caps. What's smarter is the built-in open buzzer that alerts you if the lid is left open, adding a layer of safety and convenience. It's a thoughtful addition that makes every ride simpler and stress-free. There are also body coloured passenger grab handles at the rear of the Xoom 125 as standard.

Sequential LED Indicators

The sequential LED indicators on the Hero Xoom 125 offer a premium automotive feel usually seen in high-end cars. These dynamic indicators light up in a sweeping motion, instantly catching attention and enhancing your road presence. They're not just for looks, they provide clearer signalling to other vehicles, ensuring safer lane changes and turns.

Digital Speedometer with Turn-by-Turn Navigation

Stay connected and informed on every ride with the fully digital speedometer featuring Turn-by-Turn Navigation. With real-time directions synced via Bluetooth, the Xoom 125 ensures you never miss a turn. The display also offers crisp readouts of your speed, fuel level, and more, making it easy to stay in control, whether you're commuting or exploring new roads.
